

Gingerbread-By-Design

Country Store Gingerbread Pattern

Approximate size: 8" wide x 7 1/2" deep x 9" tall

Walls

Apply frosting to front side of **roof support (second piece B)** and attach to the back side of the **front wall (piece A)** so that the peak corresponds with the peak of the back wall (**piece B**). Place **four wall pieces (A/B, B, E and E)** flat on your base so four corners are touching. Apply a bead of frosting along the base and sides of each piece. Stand-up each wall, connecting pieces to each other at sides. Support with food cans if necessary.

Roof

Apply a bead of frosting along top edge of wall pieces. Attach **right roof piece D**, lining up top edge and peak of house. Hold until set. Support while drying. Attach **left roof piece D**, lining up top edge and peak of house. Apply icing down middle of roof line, filling in any gaps in roof. Let dry.

Vegetable Bin

Assemble **vegetable bin pieces (F, G and H)** and place the vegetable bin in the front of the store. Vegetables may be made out of marzipan (red/ tomatoes, green/lettuce, brown/potatoes, orange/carrots) and place in vegetable bin.

Store Awning

Attach **store awning (piece C)** after you have decorated the front section of the store. It is very difficult to decorate having to reach under the awning, without knocking it over. Store awning is supported by two candy canes.

If you have any questions, e-mail help@gingerbreadbydesign.com for assembly assistance.
